

Quality Policy

Bellotti Spa management board takes into account Quality, respect for Environment, workers' Health and Safety, ethics and social principles as pivotal aspects in its strategy and is engaged in promoting the continues application and improvement at all organizational levels.

Bellotti Spa management board spreads through the whole company organization and support the effort for accomplishing the Quality System requirements as well as the other company certifications.

Objectives of Bellotti Spa Quality Policy:

- Work together with Customers to supply them with products and services compliant to agreed requirements and suitable to their needs
- Respect laws and regulations in force
- Obtain the required quality level at the lowest cost within forecasted delivery time
- Prevent production process inefficiency
- Work together with Suppliers
- Ensure adequate and continues training level to all personnel
- Continues Improvement thru Competitors' Benchmarking
- Measurement of Quality level to suitable KPI and Metrics

Bellotti Spa considers HSE requisite as an integral part of Quality Policy, meaning that:

- Health and Safety are taken into account since the beginning of new or revised process or activities
- The whole organization has to actively participate for the accomplishment of health and safety goals

Quality Policy

Bellotti Spa commits to apply and respect the social, health and safety requirements as defined in FSC and PEFC standards.

Bellotti Spa is carefully oriented towards the sustainability of natural resources exploitation and apply the chain of custody scheme in accordance with FSC and PEFC standards.

Furthermore, a significant share of electrical consumption is satisfied by the usage of renewable in-house sources.

Most important resource for Bellotti Spa is the human capital, whose skills and ambitions can grow and be satisfied in a safe and peaceful but stimulating working environment.
